This beautiful 3BR/2BA one-story was the builder's own home, nicely situated on a wooded corner lot.

Gorgeous pecan hardwood floors flow throughout the spacious main floor living areas.

The cabinets were custom built on site, and the kitchen and bathrooms all have solid granite counter tops.

Grilling is easy on your composite deck where you can listen to the birds and watch the wildlife.

The walkout lower level creates a private suite and still has room for a big laundry and huge storage area.

The charming wooded back yard feels like your own private, enchanted garden.
